IMPORTATION OF PIGS FROM BOTSWANA

Name:

Address:

You are hereby authorised to import the following animals from Botswana to Namibia:

.....
.....
.....

via Buitepos to:
(Farm name at final destination)

(District)

Subject to the following conditions:

1. The animals must be accompanied by this original permit. The certificate overleaf must be duly completed and signed by a Veterinarian authorised thereto by the Veterinary Authority of Botswana.
2. Prior to importation the premises at which animals will be kept must be approved by the State Veterinarian, Gobabis.
3. The State Veterinarian, Gobabis, telephone: 062-562441, must be advised timeously of the intended date of arrival of the animals.
4. The consignment must be transported directly to Namibia by the shortest route and animals may not come into contact with any other animals during transport.
5. Upon arrival in Namibia the animals must be transported directly to the State Veterinary office at Gobabis for inspection of seals and documentation and authorisation to move the animals to the final destination provided all the import requirements have been complied with.
6. The animals must be transported in sealed trucks.
7. This permit is valid until and for one movement only.

DIRECTOR OF VETERINARY SERVICES

VETERINARY HEALTH CERTIFICATE

I, a veterinarian authorized thereto by the Veterinary Authority of Botswana hereby certify that:

1. The pigs originate from premises situated in the OIE recognised foot and mouth disease free zone in Botswana and an area not under restriction for any disease to which the species are susceptible. Should the animals not originate from an African Swine Fever free area the animals have been kept in double fenced pigsties for 3 months prior to export to Namibia.
2. The animals were kept at the premises of origin since birth or at least for the past three months. During this period the animals to be exported did not come into contact with any animals of unequal health status;
3. The animals were under veterinary surveillance for at least thirty (30) days prior to movement to Namibia during which time they were found clinically healthy and free from infectious diseases and visibly free from external parasites.
3. The animals are individually marked by easily identifiable means.
4. Description of animals

.....
.....
.....
.....

5. The animals were inspected on the day of loading and found healthy and fit to travel. Animals were loaded onto clean trucks which were sealed under official veterinary supervision.
